Dear Sir:

My name is Devin Mullet. I am a third generation Owner, Manager of the Kalona Sales Barn, Inc. in Kalona, Iowa. We are blessed to be in a community of small farmers many of which are Amish and Mennonite.

Our farmers have small herds of cattle, sheep, goats and dairy. Most of them feed out their beef cattle and sell them at our auction. Agri-Processors of Postville, Iowa is a vital participant in our auction they are willing to pay a premium for cattle and lambs in our auction.

We announce the name of each farmers cattle as they are sold through the sale and we also announce if the cattle are home-raised or not. Agri-Processors buys the best quality of home-raised cattle out of our auction every week. They are willing to pay more for quality than any of the other packers. The community of Kalona is so fortunate to have a smaller packer like Agri-Processor as a customer. Shalom Rubaskin and Family of Agri-Processors are able to produce a quality product.

Therefore, our small farmers realize more profit for their product. Without Agri-Processors our farmers would be forced to sell to the big packers for less money. It is absolutely vital for our community that we have Agri-Processors here and in business.

Sincerely,

Devin Mullet  
Kalona Sales Barn, Inc.  
President
