

To Whom it may Concern:

6-16-06

Agriprocessors have been great for the state of Iowa, providing good jobs and economic development for the state. Because they are one of the few packing plants in Iowa they provide competition in the market place, helping our bottom line on our Family Farm. They have treated us very professionally and very honest about the cattle market. Our Cattle business has expanded because of them. Agriprocessors is a good business with great employees.

Sincerely:
Pat Kilbuck
Pat Kilbuck, Senator North Liberty
