Dear Sirs,

I am writing this letter to express my appreciation and support for the business opportunities Agriprocessors creates in Iowa.

I have sold cattle to Agriprocessors for a number of years. Agriprocessors has always purchased "top end" cattle at fair prices. Providing farmers a fair price for an above-average product shouldn't be an anomaly. Unfortunately, vertical integration and consolidation now dominate the cattle industry. Those types of business practices hurt producers and consumers. Thankfully, Agriprocessors provides an avenue to market cattle for farmers committed to excellence in animal husbandry and stewardship across our state and region.

In addition, Agriprocessors is one of few cattle harvest facilities left in our state. The value of a local market is invaluable when considering freight and shipping costs. Without Agriprocessors, I would be forced to market finished cattle hundreds of miles further away which would significantly limit my potential for profitability.

I value the marketing opportunity Agriprocessors provides for my farm and look forward to a long and prosperous relationship with Agriprocessors for many years into the future. Thank you for all you do to sustain an open and transparent market for cattle.

Sincerely,

Gregg E. Reisinger
